

C-DIP

**READY TO USE CHLORHEXIDINE TEAT DISINFECTANT
FOR PRE AND POST MILKING USE**

- Chlorhexidine based post milking teat disinfectant
- High Emollient levels
- Ready to use from the container

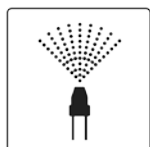

RECOMMENDED USAGE

PRE- POST

PRE MILKING

1. This product should be used direct from the container without dilution.
2. Fill foaming dip cup two-thirds full and immerse each teat, ensuring the entire surface of the teat is covered.
3. Dry teats thoroughly with a paper towel to remove residue
4. Apply clusters

POST MILKING

1. This product should be used direct from the container without dilution.
2. Fill a teat cup two thirds full with the product. Immediately after each cow has been milked, immerse each teat in the solution ensuring that the entire surface of the teat is covered OR spray the full length of each teat.
3. Refill the cup as necessary.
4. Teat cups should be emptied after milking and washed before reuse.

Storage: Store in a dry well ventilated area away from sources of heat or ignition

Pack Size: 25, 200 & 1000 litre

Shelf Life: 1 year from date of manufacture
