

RED LABEL HYPOCHLORITE

SODIUM HYPOCHLORITE SOLUTION FOR GENERAL DAIRY USE

- General all purpose sterilant for dairy farm use
- Can be used in conjunction with a detergent powder
- Minimum available chlorine 11.8% w/v

RECOMMENDED USAGE

IN-PLACE SANITISATION

1. Thoroughly rinse the plant in clean water and run to waste.
2. Add product at the rate of 400 ml to 100 litres water of clean, cold water (0.4%).
3. Circulate for 5-10 minutes.
4. Rinse off solution with clean cold water and allow to drain completely.

FINAL RINSE

This product may be added to final rinse water at the rate of 100ml to 100 litres of water (0.1%) where the water supply requires treatment.

It is an offence to allow chemical agents to get into milk therefore after each treatment of the equipment with the product and before the equipment is used again it must be thoroughly rinsed with clean water.

Storage: Store upright in original container in a cool, well ventilated area away from direct sunlight, acids and ammonium salts.

Pack Size: 25, 200 & 1000 litre

Shelf Life: 10 months from date of manufacture
